

ASPECT – a different view of skincare!

Australian Aspect is a range of cosmeceuticals that is free of parabens, SLS, petrochemicals, propylene glycol and artificial colours and fragrances. No diluting ingredients, toxins, irritants or skin blocking chemicals. The high caliber and concentrated active ingredients in Aspect will give you visible results - fast!

Subtly scented and in unisex packaging, Aspect provides chirally correct and potent ingredients within a very easy to use range. Aspect is perfect for everyday use, for skin rejuvenation, pre-peel / IPL / dermabrasion and post surgery.

Aspect products are available on their own or in great starter sets with smaller sizes that are also handy for travel. Concentrated and bursting with active ingredients, all Aspect products represent outstanding value on a cost per use basis, and will save you a small fortune on continual 'treatment' products that just don't work!

Aspect's specialized treatment products are not available 'over the counter'; consultation with an Aspect trained beauty professional is required before first use. While the cleanser and moisturiser are suitable for all skin types, Musq offers a free but essential consultation on product suitability and application due to the potency of the Aspect range.

Specialty Aspect medi-facials and medical strength peels are available in the salon. Details follow at bottom of page. For compelling photographic and clinical evidence of the effectiveness of these products visit http://www.advancedskin.com.au/aspect_1.html

Aspect Cosmeceuticals Product Range:

Purastat 5™ is an effective & very gentle skin cleanser. It will remove imbedded dirt, excess oil, pollution and assist with unplugging congested pores thus discouraging imperfections. With a double cleanse it will thoroughly remove makeup without stripping skin. Without any SLS in found in 'sensitive' skin lines, Purastat 5 is safe and calming on acne, rosacea and reactive skins.

Cell-ablation™ - microdermabrasion cream provides deeper cleansing and resurfacing without trauma to your skin or purse! Use of this gentle but effective cream will result in clearer, smoother and more youthful-looking skin. Pores will appear tighter and smaller.

Cell-ablation™ is an ideal 'prep' when using specialized treatments. By removing the outermost and congested skin surface, the active ingredients in the treatments are more quickly and effectively absorbed deep in to the dermis.

Extreme C™ provides multiple benefits – firming, tightening, brightening, smooth skin tone and more! Applied before Phytostat 9 moisturiser this vitamin C rich serum will dramatically repair the look and feel of environmentally damaged skin, improve elasticity and help minimize the formation of pigmentation. Vitamin C is well known for its ability to assist with healing and repair, so whether your concern is acne or aging Extreme C™ offers extreme benefits for all skin types!

Exfol L 15 is an exfoliating and deeply hydrating serum. Enjoy superior skin resurfacing to accelerate the skin's natural cell renewal cycle without any trauma or visible peeling. As it lifts away accumulated and dull surface skin cells, the smoother, clearer and healthier-looking layer will be revealed, with more refined-looking pores and fewer visible imperfections. Contains Canadian Willowherb which dramatically calms the feel and look of stressed skin and Lactic Acid (derived from milk) to gently and effectively resurface and hydrate skin. Lactic Acid is produced naturally in our bodies, so is 'recognized' by skin. Its benefits have been enjoyed since ancient times in milk baths, and include -

- diminishing fine lines and wrinkles
- reducing the appearance of age spots
- reducing hyperpigmentation
- decongests oily and acned skin

- a skin softening agent and improves skin texture
- stimulating collagen production

Envirostat is more than a sunscreen and has its origins as a secret recipe of the natives of Acapulco. Offering a completely natural SPF with moisturizing ingredients and antioxidants Envirostat is more like skincare than sun protection! It's smooth texture gives a fast and easy application.

Phytostat 9™ is a rapidly absorbed moisturiser that negates the expense and inconvenience of separate day, night, neck and eye creams. And it is suitable for all skin types! This clever nutrient rich product dramatically restores moisture reserves, wards off visible signs of ageing and promotes smoother and firmer skin. The blend of ingredients including antioxidants and potent pure sea buckthorn assist to -

- Reduce the appearance of fine lines and wrinkles
- Reduce the look of dull, uneven skin tones
- Brighten and more radiant complexion
- Soften skin texture

Vitamin B serum is jam-packed with an energizing cocktail of ingredients to effectively turbo-charge your current Aspect™ skin care products for maximum visible impact! This serious 'booster' elixir infuses skin at a cellular level with a blend of B vitamins and 5 super skin-boosting sea plants that deliver an almost endless list of skin benefits.

For all skin types and concerns, it is applied after cleansing and 5 minutes prior to any other serum or product. Benefits include -

- Reduces the appearance of redness.
- Reduces the appearance of wrinkles and imperfections.
- Brightens the appearance of skin.
- Delivers a smoother, firmer and more even-toned appearance

Retinol Brulee Serum. Whether the concern is acne or anti-aging, Retinol™ is known to be virtually synonymous with clear, healthy, youthful-looking skin. Retinol Brulee™ has only 100% pure bioactive Retinol in microcapsules in the highest allowable concentration to ensure rapid and safe results. It is coupled with Canadian Willowherb which cosmetically strengthens the skin's defenses, is a 'free radical scavenger', and is an anti-irritant and anti-inflammatory agent to calm and offset any possible minor irritation Retinol can give.

Retinol Brulee™ boasts so many benefits for all skin types, including -

- Shrinks the look of pores
- Refines the skin surface, ideal for acne scarring to sun damaged skins
- Improvement in the appearance of fine lines and deep wrinkles
- Promotes a more elastic, firmer skin texture
- Clarifies the appearance of pigmentation and discoloration
- Discourages the appearance of imperfections
- Regulates the appearance of excessively oily skin
- Restores a healthy glow to dull complexions
- Eliminates dry, rough patches

N.B. Retinol Brulee™ must be introduced slowly to allow skin to acclimatize to the highly active ingredients. It should be applied every 3rd night for a few weeks, then every 2nd night for a few weeks, and then every night. It requires firm massaging into skin for approx 30 seconds to rupture the L Retinol containing microspheres.

Pigment Punch Serum. Evens out complexions with age or 'liver' spots, brown spots, freckles, hormonal marks, blotchy uneven skin tones, red and brown acne scars. These can really destroy one's confidence and seem to add years to one's appearance.

Pigment Punch can clarify skin with these discolorations with a greater efficiency than the dangerous chemical alternatives and without their burning, irritation and trauma. Enjoy a clearer, brighter, even-toned skin with a calmed and toned down look of facial redness.

Jungle Brew Serum provides a real solution for spotty, excessively oily or impure skin. Mainstream ‘treatments’ may give a degree of short term relief but trigger rebound acne by irritating with harsh ingredients and dehydrating the skin. Inflamed, oily, congested and acned skins need ingredients to clear with calm.

Jungle Brew’s blend of exotic ingredients effectively and quickly calms inflammation, clears away impurities and congestion while regulating the oiliness. By controlling acne before the skin develops large enlarged pores and scars, there is less likelihood of the frequently resulting ‘pitting’ and scars, and then having to undergo resurfacing treatments.

Jungle Brew Benefits include –

- Clearer, less oily and healthier looking skin
- Skin texture is gently smoothed with smaller looking pores
- Reduced visible imperfections
- Provides a calmer, less angry skin as inflammation is decreased
- Does not dry or upset the skin’s natural balance
- Has no irritating and potentially skin damaging chemicals

Red Less 21 Serum This amazing serum is an ideal anti-aging serum AND therapy for skin on the brink of a nervous breakdown! If you suffer devitalized skin, facial redness, sensitivity, chronically rough, flaky or dry skin, uncomfortably tight skin, uncontrollable ‘hot’ blushing or ruddiness then Red Less 21 serum will restore your skin’s sanity.

Containing the incredible Sea Buckthorn, considered a ‘Rolls Royce’ skin anti-aging ingredient, it is also known for its prowess in reducing inflammation and assisting rosacea, eczema, and the healing of wounds and burns. Sea Buckthorn oil is high in powerful antioxidants vitamins A, BC, E K and P, essential minerals and amino acids, carotenoid and phenolic pigments, phytosterols, and essential fatty acids.

Red Less 21 offers potent but gentle, comforting and corrective benefits -

- Minimizes redness and the look of stressed skin
- Revitalizes skin
- Relieves irritated and inflamed skin.
- Comfort tight and strained skin
- Smooths rough and flaky skins
- Provide healthy- and vibrant-looking skin
- Protect and repair the appearance of not-so-healthy-looking skin
- Resist against those aggressors that damage the appearance

Eye Lift 3™ This rapidly absorbed serum is a complete and effective treatment for all those eye issues that can develop while we’re still in our prime - dark circles, under eye puffiness, dryness, fine lines, and crows feet.

With more than 28 natural botanicals and potent antioxidants only the tiniest amount is needed to give the delicate skin around the eyes a real treat!

What to Use and When – this guide to products is subject to consultation with your skin care advisor.

Medifacials and medical strength peels:

Clarity Peel eliminates brown spots, hormonal marks and other skin discolourations. 6 treatments every 14 days are recommended.

Customised Lactobotanical Peel. A Lactic peel to address excessive oiliness, clogged pores, imperfections, and minor discolourations. A series of 6 peels every 14 days is recommended.

Amazonian Detox Peel. For impure, acned and congested skin, this peel will fast track you to pure, clear, healthy looking skin. You may experience slight to moderate visible peeling following this treatment. We recommend a course of 6 peels every 14 days.

Age Defying Peel. Get ready for a serious and exceptionally effective anti-ageing skin peel. More than just a peel, this treatment is full of anti-oxidants to energize, protect and rebuild the appearance of firmer, less wrinkled skin.

Retinol Brulee Peel. A powerful rehab program for skin and ideal for skin that is sun damaged or aged. Ultra pure encapsulated Retinol and Lactic acid that work together to deliver the most spectacular anti-ageing results in record time. Retinol Brulee in the home care range must be used prior to this series of peels and we recommend a series of 1-6 treatments every 4 weeks.
